

FLOOR AND WALL

CLEANER

Arita Floor and Wall Cleaner is a water based concentrate with organic acid.

Use on facades, natural stone, ceramic tiles, excess grout tiling, salt and lime deposits both indoors and outdoors.

AritaFloor and Wall Cleaner is a water-dilutablebiodegradable concentrate with natural organic acid. It is a gentle and effective cleaning agent for facades, concrete products, brick facades, natural stones, ceramic tiles and more. Effective cleaning after grout tiling. Clean tiles, removes grout, cement joints, and salt and lime deposits both indoors and outdoors.

INSTRUCTIONS FOR USE:

Apply Arita Floor and Wall Cleaner in concentrated form or dilute up to 1:5 with water on the surface to be cleaned. Let the product work for 2-3 minutes and scrub with a hard brush or similar (notmetal) For facade washing use the same procedure and mixing but use a high-pressure washer for best result. Rinse well with clean water. Do not use on polished surfaces like marble and granite. Always test on a small area before full scale cleaning.
